# THE UNDERGROWL

THE STRICTLY UNOFFICIAL NIGHTCLIFF CRICKET CLUB NEWSLETTER

4<sup>th</sup> edition of 2017 – Thursday, 15 June 2017

***“SIMPLY UNBELIEVABLE!”***

## SOME EARLY TESTIMONIALS

*“Unbreakable!”*

**Toyota Hilux**

*“Unshakeable”*

**City of Christchurch**

*“Unimpeachable!”*

**Donald Trump Barack Obama**

*“Inconceivable!”*

**Richmond’s AFL Premiership hopes**

## “NCC CRICKET UPDATE”

The continuing feel-good story in Saturday cricketing circles is **Huw Spring**'s eclectic mix of B-Grade cricketers and their steady march towards a previously improbable finals series.

Before their well-earned rest for the Bye before the start of the two-day stuff (ugh!), the NCC Bs's were sitting in 2<sup>nd</sup> place. In their second last game, the Bs produced arguably their most even and complete performance of the season to down Tracy Village 182 to 161.

Returning superstar and the best 'Net Captain' since **Spiderman, Rusty Gibson** underpinned the early Tigers' innings applying 'block and snore' tactics with a patient but vital 27 off 69 balls (we elected not to use the word 'critical' when taking about ~~patients~~ 'patience' in the NT just now...). This plinth allowed other NCC batsmen to find their feet, the best of whom were indomitable Skipper **Huw Spring** (41 off 53) and an electric 39 off 27 balls from **Goku Vivekananda**, who combined for a telling 77-run partnership.

Wickets were shared by the bowlers, who combined well, with **Lachy Baird** (2-24) continuing his run, assisted by **Dean Thiesfield** (2-22), **Toby Murphy** (2-38) and **Scott Mannion** (2-18). The B's played top side **Darwin** last week and copped a touch-up on a dodgy under-prepared home wicket.

The **C-Grade** team has found more trouble than the cast of Game of Thrones in early 2017, but they were buoyed by a recent stirring win over arch-nemesis **Tracy Village** at the Den.

The exclamation point(s) 8/153 (cc) to 133 win, in the darkening shadows of the setting Nightcliff sun, was penned by Skipper **Alexander (the) Tate**, who took a fantastic (unassisted) **hat trick** to put a sleeper-hold on the TV innings and win the game for his charges.

In a slightly less than moderately interesting numerological coincidence, **Alex Tate** decided to 'use the Fours' as Skipper that day, adding to his 4no with the pulsating figures of 4-4 off an over.

In other match highlights, **Glenn 'Jamie' Durie** top-scored for the Tigers with a gallant 48 and **Adam Cundy** took 3-26, providing a tight supporting act for the blockbuster **Tate** extravaganza.

**L** – **Alex Tate** – his 'straight shooting' with the ball resulted in a bag of unassisted wickets, including a hattie!  
**R** – The final TV wicket to seal victory was taken by the jubilant C-Grade Tigers in fading light!

**Udara Weerasinghe's A-Grade** unit fought hard in their first two-day game against **Darwin**. They clearly now need to string together successive wins, but the beauty of two-day cricket is that if they do this, they will be right back into finals calculations. Close enough if good enough, but the batting needs to gel and a few bats need to roll the sleeves up and spend more time in the middle.

**Udara Weerasinghe** – a man still with a (2017 finals) plan! *#babysteps*

**But what about 'Sunday A-Grade',** I hear you exclaim?

The D-Grade juggernaut was stopped in its tracks momentarily over the past fortnight, with two reality-checking losses against **Darwin** and **Tracy Village Sidchrome Spanners XI**. However the D's squad continues to learn bout themselves and the way forward in 2017, which will leave them in good stead as they look to solidify a finals position over the next month.

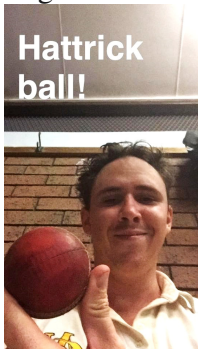

A good number of the D's batsmen were quite surprised to be actually handed scorebook receipts for taxation purposes, given the downright charitable donation made of their wickets in several instances over the past fortnight!

The surmountable task ahead contains not one, but **two Tracy Village arch-nemeses**. Apart from reigning premiers **TV Spanners**, also sitting undefeated atop the D's ladder is the undefeated **TV United Petrol Stations**, who have thrown even more fuel onto the fire of battle by playing one of the recalcitrant absconding Sri Lankan tenants from NCC D's Skipper's Ludmilla house, **Vishnuvardhan Thamelselvan**. Cricket (and dead-set drama) fans cannot afford to miss the **2 July 2017** clash between **TV United** and NCC D's at the Death Star. *#chirpyskipper*

**L - D's last few weeks in a pic...**they hope to be leaving others with the sinking feeling by season's end.  
**R** – They've built *two* Death Stars down at Tracy Village. But Tigers have their best men looking for the plans!

**“THEY SAID IT” - QUOTABLE QUOTES**

<p><i>"Gee that was quite a spectacular drive!"</i></p>	<p>This from an NCC D's slipper admiring the perfect execution of a cover drive from TV Tools batsman <b>Stuart Johnstone</b>, who the lads fortuitously removed for 25 before he did too much more damage. Still one of the better (if not best) bats lurking around 'Sunday A's'.</p>  <p><b>Stuart Johnstone</b> - has been dining out on D-Grade bowling over the past two seasons, scoring an absolute glut of runs.</p>
<p><i>"The bigger the lie, the more it will be believed."</i></p>	<p>This expression was of course coined by <del>John 'Truth Overboard'</del> <del>Howard Malcolm Turncoat</del> <del>Tony Abbott</del> <del>Donald Trump</del> <del>Theresa May</del> <del>Colonel Sanders</del> <b>Adolf Hitler</b>, in his 1925 work 'Mein Kampf', the crappy anti-Semitic book that <b>Pauline Hansen</b> wished she had the vocabulary to read, let alone write.</p>  <p><b>Adolf Hitler</b>. Even he thought <b>Richard Nixon</b> was a shit bloke.</p>
<p><i>"If it was any sweeter, it would be dead-set illegal!"</i></p>	<p>An awestruck Tigers spectator who saw the hat trick wicket fall first hand against Tracy Village at the Den (using the torch function on his iPhone 7!) and also saw the Tigers win and knew that it was good.</p>  <p><b>C's skipper Alexander the Tate</b>...well bowled buddy! #poolroom</p>

**“THEY SAID IT” – MORE QUOTABLE QUOTES**

*“This is a very dangerous and uncertain world...we are still the keystone in the arch of freedom.”*

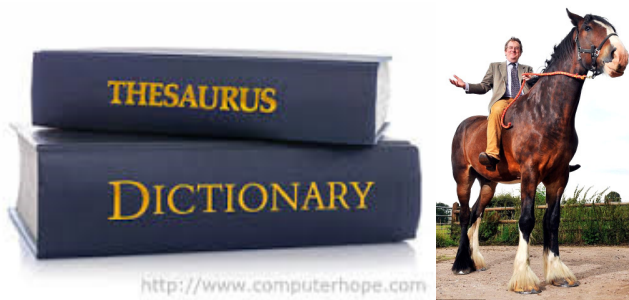

No, this wasn't the **British voting public**, standing up (in part) to Tory tyranny, including a vitriolic media smear campaign against Labor orchestrated to keep Zillionaires footloose and tax free, but former US President, **John F Kennedy**, at his final public speech delivered on 22 November 1963, prior to his fateful drive along Elm Street in Dallas, Texas.

**Theresa May**...has had a pretty sh\*t June! **#backfired #suckeggs**

*“Grammar, punctuation & spelling are important to us. It's the difference between, “helping your Uncle Jack off a horse”, and “helping your uncle jack off a horse”.*

This from an unknown wordsmith recently attempting to ‘police’ the linguistic dystopia of cyberspace. It is a jungle out (in) there and we really should all look out for each other.

Language. It is our friend. Need a hand there, **Uncle Jack?**

*“Well we don't want any “IN.Jury's” in D-Grade now, do we!”*

This clever offering after Junior (and Senior) training at the Donga, was provided by **D-Grade Rehydration Manager James ‘Waterboy’ Hatton**, amidst a discussion of D's player availabilities. No need to panic **Nathan Jury**, he wasn't actually referring to you, were you James? James??

**James Hatton** has been such a refreshing addition to D's in 2017!

## 'TWEET'LE DEE AND 'TWEET'LE DUM(B)

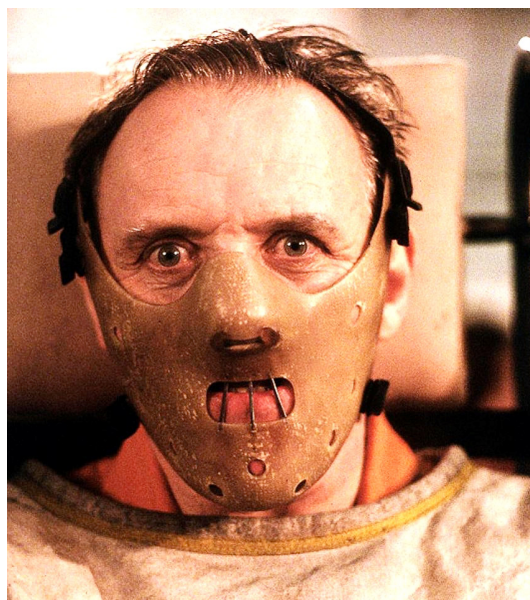

Now we're not saying that the 45<sup>th</sup> President of the United States Donald Trump is 'dumb', 'stupid' or anything like that, no siree!

However it is safe to say that 'intelligence' (particularly of the Russian kind) has been a bit of an ongoing issue for him. *\*snigger\** Hold on, is this even a secure newsletter line?

Sacked FBI Director **James Comey** (left below) gave ~~testimony~~ evidence before a Senate Intelligence Committee (including) about nine one-on-one meetings with Trump. Comey said that on one occasion, after Trump 'cleared the room' (including of Comey's boss, the Attorney General), he (Comey) gained the clear understanding that Trump was asking (pushing) him to drop an FBI investigation into the then National Security Advisor **Michael Flynn** (a Trump ally), who as part of the Trump Campaign, was being scrutinised over his ties and communications with Russia.

One thing has become abundantly and immediately clear, *both* Comey and Trump cannot be telling the truth. As Chris Isaak once crooned, "*I know when somebody's lying.*"

Probably the most extraordinary part of all of this is the sheer length of time Trump has spent *off* Twitter, creating a new 2017 PB for him. We giggled to ourselves a little in-house here at the *UnderGrowl*, imagining Trump strapped up in the Oval Office like **Hannibal Lectur**, with his phone finally sitting harmlessly on his desk beside him, like a diffused bomb.

*L* - **Somebody's lying**. Gee, wonder which one! *R* – **Trump** is showing great restraint to stay off Twitter just now!

Well, significantly 'darkening' Trump's pic was a nice little editing 'trick' by Master **Jollett** too. If we were much more proficient with 'photo shop' (ie/ knew how to use it *at all!*), we would have put a grubby little moustache on him too...or dressed him up as a Muslim or as a Collingwood fan!

## THE NCC COMMITTEE SAFETY TIP OF THE MONTH

*Try to minimise the amount of polyester you wear on Cracker Night/Territory Day!*

### COCO'S CORNER

Our 'man about town' (well, the seaside suburb of Nightcliff) **'Coco' Mackinnon** has been one of the main architects behind the NCC B's recent stunning form reversal. Well, he's taken 2 wickets over the last fortnight and we think he held a catch?

But he is so much more than just his wicket tally to the Nightcliff Cricket Club, as he continues to shine in his roles as Donga Deputy Manager and Head Food-Taster. And it is great to see that **'Coco'** is not only thinking about his cricket, but about the broader world around him.

*"My life is not all cheesy, maple bacon hot dogs, I'll have you know. Sometimes it's pizza and pies as well. I'm not a 'salad dodger' though, I just do not seek it out as readily as some other people."*

'Coco' was a little circumspect with his theories on who he thought had bumped off JFK back on that fateful November 1963 day in Dallas. *"I think it might have been an inside job. Maybe even from within his family if not by the CIA?"*. *"I think I have a 'Dead Kennedys' album at home"*, he added.

He was more forthright when discussing the hopes of his beloved Pies in 2017 however. *"I think we'll get there, though I am a little more hopeful than confident of making the Eight and playing finals. But gee, if Richmond can do it, anyone can do it!"*. Our Coco was also unsure if 'Bucks' was their man going forward, but was prepared to give him his support (and considerable influence) in 2017.

Former DDCA cricketer **Corey Sinclair** has been cleared of any involvement in the JFK assassination (it occurred about 30 years before he was born) and any subsequent cover-up or thwarting of the release of evidence by authorities. His parents otherwise said they hoped Corey might be able to transition back into playing cricket by the start of the 2020 DDCA Season.

**'Coco' McKinnon...**his hotdogs bring all the girls to the yard!

## MONGOLIAN INVASION!

In an epically major *UnderGrowl* exclusive, we are going to expose one of the most tantalising, mesmerising, delicious, delectable recipe released into the public domain for over 200 years.

Forget chook-slayer **Colonel Sanders** and his supposedly secret '*eleven herbs and spices*' recipe. Two of those were 'salt' and 'pepper' for **Gary Ablett Snr**'s sake, what a fraudster!

We are of course referring to the flavour invasion and original *UnderGrowl* slow cooker recipe, '**Mongolian Beef**', which we now want to share the love of and gift to the masses.

### Ingredients:

750g *flank steak* (buy whole and cut into thin strips)  
1/3 cup *cornstarch*  
2 tablespoons *olive oil* (add 1/2 tablespoon of *sesame oil*)  
1 heaped teaspoon minced garlic  
3/4 cup *soy sauce* (add a little *sweet soy* too)  
3/4 cup *water*, 3/4 cup *brown sugar*  
1 Cup each of *grated carrot* and grated or finely chopped (into 'sticks') *sweet potato*  
1 *large onion*, 1 *red capsicum* (cut into thin 3cm long 'strips'), some finely diced *lemongrass*  
Spring onion (to garnish the finished product).

### Method:

1. Place **flank steak** strips into a zip lock bag with the **cornflour**. Shake it to coat the meat.
2. Add the **olive (sesame) oil, garlic, soy sauce, water, brown sugar, carrots & sweet potato** to the slow cooker, mixing well. Add **coated flank steak** and mix well until all coated in sauce. **Tip:** Use a *spatula* to clean sauce off sides inside before/during cooking.
3. Sear the **onion, capsicum** and **lemongrass** (with a little butter/oil) in a pan/wok for a few minutes to soften/brown (onion) slightly, before adding to the slow cooker.
4. Cook on low for 6 hours. Serve with **rice**, garnish with chopped **spring onion**.

**Genghis Khan** would have crossed (and bludgeoned) many countries for a serving of this beauty

**AFL STAR STEVIE J AS DAMAGING AS EVER?**

In a massively developing story, a car belonging to AFL and GWS superstar **Steve Johnson** was involved in a high-speed pursuit across Sydney that only came to an end after it was rammed by a police vehicle.

Officers gave chase after spotting the stolen Ford Falcon on the Princes Highway at Carlton, in southern Sydney, about 7.15am on **Saturday, 3 June 2017**, but had to pull back due to safety concerns.

The vehicle was then seen speeding along Henry Lawson Drive at Milperra, in Sydney's south-west, about fifteen minutes later. But it wasn't until it reached Riverwood that they were able to bring it to a stop.

A small brick wall of a property on Belmore Road was damaged in the chaos, as stunned residents emerged to investigate the commotion, with the driver then fleeing the scene.

"Dead set, I thought I was at Bathurst speedway because of the noise and the sound." one witness told the Nine Network.

'**Stevie J**' coincidentally missed playing in the **GWS vs Essendon** game played that same day. When later asked by Police about the chase, he completely denied he was even in the car and said he had spent that Saturday morning relaxing at the **Nightcliff Sports club** with his good mate and life mentor, D-Grade's own **Cammo Collins**.

When Police came to **Collins'** house to question him about the incident, he refused to even open the front door, shouting out "*Nah, p\*ss off, I've already paid some f^#\*ing NCC fees, you mangy dogs!*". Police quickly fled the scene before the situation escalated further.

*Left* **Stevie J** – "*Nah, it wasn't me driving, officers, don't know a single thing about it!*"  
*Right* – **Cammo 'The Ammo' Collins** was less than forthcoming with Police...

## VICKERY'S CURSE

It seems a simplistic and arguably unfair viewpoint to lay the recent woes of 'Once Were Warriors' Hawthorn solely at the big feet of new 2017 recruit (and human Horcrux) **Tyrone Vickery**.

However we are going to. The core numbers and sheer comedic value are far too compelling not to.

Like a man walking along a see-saw, the side **Vickery** walked away from (**Richmond**) has gone straight up and the side he has walked onto has plummeted straight down.

After recently recording their lowest half time total (3 points) in the all-time history of the Hawthorn Football Club against Port Adelaide, Hawthorn arguably has reached new lows not experienced by the Club since **Ritchie Vandenberg** had his own car park space at Glenferrie Oval.

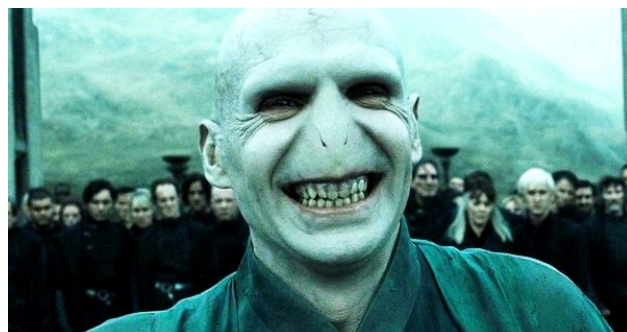

Conversely **Richmond**, without the millstone of Vickery around their already strained necks, are now playing like a potential top-9 side.

Recently Vickery has gone the anti **Samson** (of Biblical fame) approach, by cutting his long locks off in the hope that he would *gain* strength and power from this. Rumour has it that his teammates actually did this to him whilst he slept on the flight up to play Sydney a week or so ago, in a vain attempt to change his and their fortunes before considering taking more drastic measures.

Hawthorn recruited Vickery with a mind that he might become their next '**David Hale**', pinch-hitting in the ruck, whilst kicking goals up forward. Unfortunately and well after the contractual ink had dried, they discovered he unfortunately moved around more like **Damien Hale**!

The *UnderGrowl* then turned to the numbers to see exactly where Vickery sat in the 2017 Goal kicking list after Round 12, given the Hawks' recruiting intent. **Jeremy Cameron** and **Lance Franklin** currently lead the Coleman with 35 goals, followed by **Eddie Betts** and **Josh Kennedy** (WCE) on 34. In fact everyone named '**Josh Kennedy**' (or '**Tom Lynch**'...or '**Tom McDonald**' for that matter) has scored more goals. Essendon superstar **Joey Daniher** (34) has kicked 17 times more goals than Vickery, who has carded a mere 2 goals (and 6 behinds) in 2017 to date.

2017 may become an epically long season for both the Hawthorn and Vickery families.

L - Tyrone Vickery. Hawks could yet have a '*Line in the Stands*' game planned for him in 2017.  
R – Even **Voldemort** would not have recruited Vickery into his ranks.

## 2017 AFL SEASON SNAPSHOT

*“And they’re all taking off at the 550-metre mark, a wall of horses around the outside, coming up to the (final) bend...”*

Does anyone remember this memorable race call from Brian Martin in **Makybe Diva**’s pulsating 2005 Cox Plate victory as the horses neared the final turn of the famous Moonee Valley circuit?

About ten horses began to make their runs at the same time from about 600 or more metres out from the finish, and at one stage they were racing side-by-side in a line in a most spectacular sight, in an equine ‘wall’.

For all intents and purposes, at that stage of the race, these horses were all equally placed, it was a close race. But there was one mare travelling so much better than all the others, keeping stride with the others with minimal exertion, with so much more to give.

*L* - An artist’s impression (**Maryanne Lillecrapp**) of the 2005 Cox Plate field as they neared the turn.

*R* - GWS – Will their Cup runneth over in 2017 (and 2018, and 2019 and...)?

And ‘give’ she did as **Makybe Diva** worked through her gears like a new Porsche, surging away from her opposition in the straight for a famous Cox Plate victory.

Similarly in the 2017 AFL Season, it appears on paper to be one of the closest seasons in years. However there is one team, with up to half of their top-22 players out and choosing from a list of about 27 at the moment, who we think is ‘travelling’ considerably better than the rest, with more to give. Despite so many setbacks and injuries, they already sit equal top of the AFL Ladder with Adelaide.

And that ‘conveyance’ is **GWS**. With a Bye this week to assist with replenishing their stocks, we think they will move into another gear over the next two months and establish themselves as a clear flag favourite. In fact, apart from GWS, we believe only **Geelong, Adelaide, Sydney** (who would need a back half of the season like something out of the movie, ‘**Major League**’!) and at a (Michael) long stretch, **Essendon** are even capable of winning the 2017 Flag. Despite the overall evenness of the competition, there are actually not too many genuine premierships-winning chances.

However we are of the view that the 2017 AFL Flag may soon enough be at the ‘mercy’ of GWS. And perhaps the next few seasons’ premierships as well, if the dam wall is broken in 2017.

## JOKES

I told my girlfriend the other day that she drew her eyebrows too high.  
**She looked at me, surprised.**

I bought some shoes from a drug dealer the other day.  
**Don't know what he laced them with, but I've been tripping all day!**

Two clowns were eating a cannibal.  
**One turns to the other and says, "Mate, I think we got this joke wrong".**

## KEEPING A 'LUD' ON IT!

***"Hey there baby...you've reached Dual Award-Winning NT Sales Rep of the Year, multi-D-Grade premiership winning and E-Grade Batting trophy winning batsman, Nathan Jury. Please leave a message...I'll get back to you!"***

It's great to see it's not all going to the head of our multi-faceted, multi-skilled D-Grade swingman, **Nathan Jury!**

Nah, seriously Bro and with much sincerity from all of us at the *UnderGrowl*, a massive well done **Nathan Jury** and well deserved by you, winning the 'NT Sales Rep of the Year' for the second year running at the recent AHA Hospitality Awards.

*L - Back to Back, Jack! R - And to the Winner goes the spoils...and we're talking about the trophy!*

## JFK ASSASSINATION – ‘THE SINGLE BULLET THEORY’ – PT. 1

The Assassination of US President **John F Kennedy** (‘JFK’) remains one of the more puzzling ‘cold cases’ since **Jesus Christ**’s body was found in a cave with a huge rock in front of it.

Nearly everybody has a theory about the assassination of JFK on **22 November 1963** (not all of which include extra-terrestrial intervention), which arguably has clouded the dispassionate consideration of a body of known facts and evidence (excluding the considerable evidence that is *still* being withheld by USA authorities). CIA? Russians? Cubans? A lone gunman?

When the *UnderGrowl* began to ‘scratch the surface’ of this case, one thing became chillingly clear. An unerringly consistent public message was immediately sent to **Dallas Police** and to the public within the hour, that it was a (crazed) lone gunman who had killed their President. Descriptions were given to Police of their alleged single killer. Before **Lee Harvey Oswald** was apprehended. Before he was even identified by Police, which did not occur until over six hours later.

The ‘message’ was carefully crafted and controlled from the outset. Air Force One took off from Dallas within hours, with JFK’s corpse aboard (which should have remained in Dallas, first-degree murder is a State crime), with **Lyndon Baden Johnson (LBJ)** sworn in as President mid-flight.

This then later dovetailed seemingly perfectly into the ‘findings’ of the publicly held **Warren Commission**, which ‘found’ that JFK was shot by a lone gunman, **Lee Harvey Oswald**.

The whole underlying basis of this finding rises or spectacularly falls flat on the ‘**Single Bullet Theory**’, one of the most fantastic, science and logic-defying and despicable untruths ever excreted into the public forum.

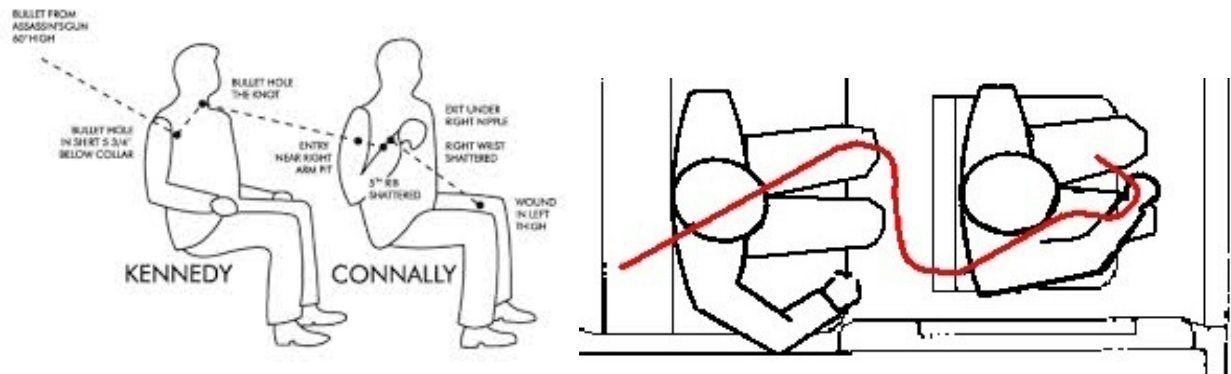

We at the *UnderGrowl* really do love our ‘**dot points**’ and randomly **bolding** words. So we thought we would set out the rest of this article in dot form, as a series of concerning issues, queries and happenings, evidentiary matters (direct and circumstantial) and observations, which we believe raise a ‘serious case to answer’ against some shady, nasty people. Well, that is if most of them weren’t already dead!

The evidence here is far more compelling than that scrambled together and tossed at **Essendon FC!**

Here we go, buckle up babies, this will take us a few pages. This may even kick **Coco’s Corner** out of this Edition...unless he can give us a meaningful quote about his thoughts on this case.

- \* The ‘**Single Bullet Theory**’ is simply this. The Warren Commission (WC) found that there were **three bullets** fired by just one man (Lee Harvey Oswald), from up in a building behind JFK’s car, in under seven seconds, the established and accepted timeframe of the shots.
- \* Oswald allegedly used a manual bolt action **Mannlicher Carcano** rifle. Experts found it hard enough to fire three shots off within that time, let alone aim from 265 feet. So if this crucial finding holds any water, there can be *no further shots* shown to have occurred. If there is evidence of any other/further shots, the theory of Oswald acting alone is impossible.

- \* The WC soon found themselves up ‘sh\*t creek’ however, when during the hearings, a witness (**James Tague**) who was at a nearby underpass, gave incontrovertible evidence that he was wounded by one of the bullets ricocheting off the concrete. This accounted for **one bullet**. A **second bullet** obviously significantly rearranged JFK’s brain.
- \* Therefore, to ‘fit’ it’s theory, the WC found that the **third bullet** (which as an aside, the very bullet magically appeared later at the hospital, in pristine condition, despite having supposedly passed through bones in two bodies) accounted for all other entry and exit wounds (to JFK and Dallas **Governor John Connally** in the front seat), of which there were plenty. Thus, the WC created the ‘**single bullet theory**’ to try explain these injuries.

The ‘Single bullet theory’ in pictures. Come on kids, do the science. Do the logic!

- \* So for this ‘leaky boat’ of the public WC findings is to stay afloat, there could be no more than three bullets fired. If there was more shots fired, then there had to be at least one other shooter, as it was **not possible** within the accepted timeframes for Oswald (or whoever was up there shooting) to have fired more than three bullets. The physical evidence clearly shows there *were* more than three bullets and that the ‘single bullet theory’ is pure fiction.

**Left** – View from the fence line to the right of where JFK was shot, behind a grassed hill. **Right** – View from the 6<sup>th</sup> floor of the Texas Book Depository, where Oswald allegedly was. Where would *you* take the ‘money shot’ from?

- \* The Military Police (or FBI) ‘tipped off’ Dallas Police within an hour about **Lee Harvey Oswald**, including giving them his description. He was arrested at 1.50pm, about an hour after the assassination. The Media had his name well before he had given it to Police.

- \* The apparent ‘managing’ of the story of a ‘lone gunman’ had begun from within the first hour after the Assassination. The FBI (led by **J Edgar Hoover**), had already named Lee Harvey Oswald before he had been identified by Police.
- \* **The Zapruder film** – go and watch this short film yourself on **Youtube**. It is an eerie silent colour film shot by a member of the public, **Abraham Zapruder** of JFK’s car driving through Dallas. He was standing on a concrete platform to the right of the road (looking down from the Book Depository). This Film was not publicly shown until 1969 (during a trial conducted by New Orleans DA **Jim Garrison**). This Film clearly shows that the shot that killed JFK struck him from the right side of his head (ie/ the direction from behind the grassed hill), not from behind him (from the Texas Book Depository).
- \* At the Parklands Hospital in Dallas, when JFK’s Press Secretary **Malcolm Kilduff** first announced to the Media that JFK had died, he stated, *“Dr Burkley told me, it is a simple matter...of a bullet right through (his) head. It is my understanding that it (the bullet) entered in the temple, the right temple.”* Immediate. Honest. And entirely inconsistent with the Warren Commission’s assertion that the ‘kill shot’ came from *behind* the President (from the Texas Book Depository). But entirely consistent with the Zapruder Film and the inescapable conclusion that the ‘kill shot’ came from the right of the President’s Cadillac.

JFK’s Press Secretary **Malcolm Kilduff**’s public (and honest) announcement of JFK’s death to the media.

- \* So there was an **Autopsy** performed, right? Not in Dallas, but in Washington, by a medical examiner who had *never* before undertaken a gunshot autopsy (**Earl Rose**). The room was filled with Secret Service, FBI and CIA operatives at the Autopsy, who were actively ‘assisting’ in the process. **Oh, and they somehow lost (the rest of) JFK’s brain.** Never found! No photos of the Autopsy were ever presented to the Warren Commission, only drawn pictures. Oh, and Rose’s Autopsy notes taken were immediately burnt.
- \* Photos of JFK’s wounds taken at the autopsy later revealed showed clear evidence that a wound on JFK’s forehead had been altered (using a scalpel) in a clumsy apparent attempt to try and hide the apparent fact that the wound on the right of his head was in fact an entry wound, not an exit wound for a bullet. This could only have occurred on Air Force One, which had scurried off about an hour after the assassination, with LBJ, Secret Service and JFK’s body on board. Why would any ‘alteration’ have needed to have occurred at *that* early stage, before an autopsy had even occurred or anyone had even been charged with the assassination? An inescapable conclusion is that there was a ‘version of events’ to be publicly managed.

- \* There was an **unidentified fingerprint** lifted from the ‘sniper’s nest’ (on the window sill at the sixth floor of the Texas Book Depository on the day of the assassination. In 1998, there was a ‘blind test’ undertaken of this sample and a sample of a **Malcolm (Mac) Wallace**, which established a clear match (34-point match), about 5 times more probative than that required for a criminal prosecution. This implicated him as being part of a shooting team at the scene on the day. **Mac Wallace** was a military ‘sharp shooter’, **Oswald** was not.
- \* **Mac Wallace** was a well-known hired ‘attack dog’ who had worked for **Lyndon Johnson** (LBJ) and was an expert marksman, who had been convicted of killing a man in Texas in the past. He himself had suddenly died in a ‘car accident’ in 1971.
- \* The so-called ‘evidence’ against **Oswald** himself was dodgy. There was no physical evidence that he had even fired a firearm that day. There was apparently a fingerprint of Oswald’s found on a firearm ‘found’ in the so-called ‘sniper’s nest’. But this was not initially found by Dallas Police, but rather, a print inside a rifle cartridge was discovered by the FBI **after** they had (illegally) removed the evidence from Dallas to Washington.
- \* Direct evidence given to the Warren Commission placed Oswald on the 2<sup>nd</sup> floor of the Texas Book Depository about 90 seconds after the shooting, near a vending machine and clearly *not* out of breath when observed at that time.
- \* It is unclear whether **Oswald** even fired a shot on 22 November 1963. But what did he know about the Assassination plans? If he was completely innocent of any involvement, why didn’t he just say that in public? Instead he said he proclaimed he was a ‘patsy’. Seemed a strange choice of words from an entirely innocent man?
- \* Shortly before the Assassination, JFK had passed **National Security Action 263** in October 1963, which had clearly stated his intention to begin to withdraw some troops from Vietnam and to begin to extricate the USA from the Vietnam War. This was to commence in 1963.
- \* But ‘War’ is a massively, ridiculously profitable business. Just **three days** after the Assassination, **Lyndon Johnson** immediately **reversed** this proposed military withdrawal (in **NSA 273**) and basically continued USA’s sustained involvement in the Vietnam War.
- \* There is a **draft** of this later Memorandum that was kept in the LBJ Library (in Austin, Texas), dated **21 November 1963**. This was the day before Kennedy even went to Dallas. Did somebody know the *day before* the Assassination that JFK was not going to be around to implement NSA 263 and oversee the USA’s gradual withdrawal from the Vietnam War?

We have described these offerings above as a ‘**Part 1**’, a statement of a present intention that the *UnderGrowl* will hopefully submit further offerings, as part of an attempt to further tie together a few different pieces of information (including about the CIA) and ideas outlined above.

However it is patently clear in our humble opinion that the ‘official’ version of events roughly spoon fed to a shackled and sedated public, through media and other official means, simply does not add up. And there has been no official ‘will’ whatsoever for over 50 years to deviate ‘off message’.

**LOOKALIKE**

One of these is a grubby, desperate, amoral creature furtively lurking in the shadows, awaiting his opportunity to seize, by any means, that which is precious to him. The other is **Gollum** from the *Lord of the Rings/The Hobbit*.

**FOLEY SIGNS ON WITH ADELAIDE!**

This sensational headline initially caused seismic shockwaves to ripple through social media, especially in and around NCC D-Grade circles.

This was until people cottoned on to the fact the story was not about our own **Brion Foley**, rather it involved NT AFLW footballer **Angela Foley** recently signing on with the Adelaide Crows AFLW team for the 2018 AFLW season.

*\*Phew\** Oh, but the *UnderGrowl* does pass on many congratulations to Angela though!

Don't panic kitty cats, **Brion Foley** remains a card carrying NCC cricketer and contracted D-Grader for now.

**SIX LEGITIMATE DELIVERIES. OVER.**
